TRACKER

COLLECTION

The Tracker Collection is the closest you'll come to a street-legal FTR750 race bike. Unique bodywork, clear turn signals, a shallow seat, and number plates on the side set the collection apart.

HIGH MOUNT SLIP-ON EXHAUST BY AKRAPOVIČ

Add style and sound to your ride with these titanium and stainless steel slip-on high exhaust pipes by Akrapovič. The kit includes two black matte carbon fiber mounted heat shields covering the stainless steel link pipes. The titanium mufflers mount the system to an accessory mounting kit, sold separately. Passenger foot peg mount required for passengers, sold separately when using the high exhaust. Plus, conveniently change from low to high-mount exhaust with the conversion kit by Akrapovič, sold separately.

This year, Indian Motorcycle® introduced the FTR® 1200 Artist Series - a limited edition line of tank covers that instantly transform the FTR® 1200 into a piece of mobile, fine art. Indian Motorcycle® curated its lineup of artists to ensure a diverse spectrum of artistic expressions from street graffiti to modern abstract art. The designs were unveiled in June 2019 and only 100 of each were produced.

DESIGN: CAB DRAGON

A legendary skateboarding icon and original member of the famed "Bones Brigade", Cab has forged his legacy by turning pools and half pipes into canvases for his skate artistry. Over the years, he has become well known for his extraordinary "low-brow" hot-rod-culture-inspired original art work. His designs are now highly sought after by brands and collectors across the skate and art industries.

DESIGN: RISING FROM THE ASHES

A hometown visionary from Indian® Motorcycle's backyard of Minneapolis, Turman is known best for large-scale, vivid and dynamic wall-mural installations throughout the Midwest. He began his art career by creating gig posters for local bands, taking inspiration from the bold, graphic style of 1980s comics and heavy metal art. Turman's keen ability to marry his bold, vivid artistic visions with strategic-marketing objectives has made him one of the Midwest region's most sought-after commercial artists.

2020

RISK

DESIGN: A NEW DAY

A true "O.G." in the world of graffiti, RISK began his career as a founding member of the WCA (West Coast Artists) graffiti crew. RISK was one of the first graffiti writers in Southern California to paint freight trains and pioneered the use of billboards and freeway overpasses as artistic canvases. Over several decades, his career has transitioned from the streets to museums, galleries, clothing lines. RISK is an innovative contemporary artist who now incorporates everything from advanced "colour theory" to "neon" in his body of work.

D*FACE

DESIGN: THE DEVIL WITHIN

D*Face (a.k.a. Dean Stockton) is a leading figure in Urban Contemporary Art, inaugurating his career on the streets more than 15 years ago. He originally entered the scene by hand-drawing stickers and posters, adhering them all over London and beyond for the unsuspecting public to discover. His work has since evolved, from fine art gallery shows to full-scale outdoor mural installations that transform urban landscapes and high-rise buildings into massive works of art.

THANK YOU X

DESIGN: MEANT TO TELL YOU

ThankYouX (a.k.a. Ryan Wilson) began his artistic journey on the streets of Los Angeles in 2009 spray painting stencils in homage to Andy Warhol. While these signature stencils were his initial calling card, they were only scratching the surface of his multi-faceted artistic identity. As his level of notoriety expanded, the nature of his expression evolved to modern abstract designs that stand in contrast to the more conventional graffiti-inspired street art paradigm. His unique brand of street art has captured attention and earned acclaim around the world.

BATTERY MAINTENANCE TIPS

Extend your battery life with a BatteryMINDER and these tips.

1. Store batteries in a cool, dry location.
2. Check that the battery connections are tight. Cables should not be able to be rotated or shifted by hand.
3. If your battery has a drain tube, make sure it is free of clogs.
4. Clean your battery - use a soft brush to scrub the top of the battery. Use baking soda to remove grease.
5. Connect a BatteryMINDER after using your vehicle even if the vehicle is in regular use.
