# WELCOME TO THE PREVIEW OF OUR 2018 APPAREL & GIFTS

This guide has been designed to give you detailed insight into the products we have developed for the season with further new product introductions in our motorcycle rider wear, casualwear and gift categories.

The Indian Motorcycle® footwear range is extended with a collection of CE approved boots developed for motorcycle riding. The jacket and glove lines are also extended along with a new range of graphic tees, shirts, hoodies and sweatshirts. New categories are added to the 2018 range with an exclusive collection of premium riding jeans that have been developed in collaboration with Rokker®. We also add premium eyewear as well as a number of new gifts and personal accessories, including man-cave and garage products.

## THE BASICS

For 2018 the range of riderwear sees new contemporary textile jackets and helmet options. New graphic tees, shirts and sweatshirts are added to the casualwear range as well and gifts and personal accessories, making this our most comprehensive range to date.

In order to grow Indian Motorcycle® as a brand, it is important that our apparel offerings are consistent with our brand. One of the most crucial steps in this process is to ensure that everything with an Indian Motorcycle® name, logo, brand asset, or historical piece that is in the marketplace has been approved by our Licensing and Apparel Team.

## DEALER T-SHIRT & GIFT CUSTOMIZATION PROGRAM

Only authorized Indian Motorcycle® apparel & gifts can be retailed in our dealer network. This helps to ensure the quality of products in the marketplace is consistent with our brand standards.

As an Indian Motorcycle® dealer you and your dealership serve as brand representatives. It is crucial that your store carry, promote and sell official Indian Motorcycle® merchandise.

To help with the process Indigo Clothing offer the service to dealers for custom dealer t-shirts. Please see page 60 for more information on the program.

## OFFICIAL LICENSED PRODUCTS

Indian Motorcycle® continues to develop its range of licensed products through high quality vendors. This guide will give you a more comprehensive look at the products offered by some of our partners that are available to the dealer network. These partners offer a range of products that you can order from Indian Motorcycle® directly and take advantage of additional revenue and margin opportunities.

## THE APPAREL BUSINESS

The apparel business is crucial to the success of building the Indian Motorcycle® brand and promoting the bikes we sell. We estimate that the average Indian Motorcycle® dealership will sell \$900 per new motorcycle sale of which \$400 will come at the time of the sale of the bike and an additional \$500 will come over the counter.

## STOCKING FOR THE SEASON

It can be difficult to understand what sizes to stock and how to display apparel effectively within your dealership. Indian Motorcycle® offers sizing up to 5X men's and 3W women's. To determine a typical size run needed for a collection of jackets you should look at your retail velocity and demographic. Below is a snap shot of sizing typically needed for one part number of a leather jacket, textile jacket, or casualwear based on the size of your dealership.

Here are some tips on how to get the best out of your upcoming order and ensure you have the right mix of products for the 2018 season. What you select will have a direct effect on your season's apparel sales performance, including profitability and customer satisfaction. The following questions will help you form your order.

Also consider your online business. The Polaris® ICE system is designed to support dealer online sales for apparel and gift items. Ensure you regularly check for available orders you can fulfil via your stock. Online sales should account for at least 10-15% of your total apparel & gift revenue. This will increase during peak periods such as holidays and the start of the riding season.

## FINAL SEASON FINAL SEASON

Products marked Final Season will only be available while stock lasts and will become obsolete after 2018. We recommend that these lines are cleared out of your stock as soon as possible. By clearing these lines sooner it helps to reduce your stock obsolescence and means you can turn the stock into revenue, allowing you to reinvest in current selling lines. Display this stock as a mark-down line in your store to clear it through at the earliest opportunity. The following lines are in Final Season and should be cleared:

**INDIAN MOTORCYCLE® 1901 FASHION FIT TEES**

The Indian Motorcycle® 1901 Fashion Fit Tees (P. 43) form part of a new line of tees that will be launched to fashion retailers under the brand name Indian Motorcycle® 1901. This collection will be sold through premium department stores, specialty stores and independent fashion retailers, with the objective of growing Indian Motorcycle's brand awareness and solidifying it's brand positioning to a wider audience of customers.

We strongly believe this business complements and does not conflict with the dealer core apparel business. The dealers network will continue to have an exclusive distribution of riderwear, casualwear and gifts that will not be sold through other channels. We will also offer dealers product from the Indian Motorcycle® 1901 range, to sell through your stores, as the collection grows. Four new fashion fit tees are included in the 2018 range, exclusive designs for Indian Motorcycle® dealers.

**BEFORE YOU ORDER**

Consider what budget you have for this collection.

- How many prongs, shelves and rails do you have to fill?
- Remember that your retail space needs to work to its maximum potential, so do not under-fill your apparel display. Also, do not over-fill your space. It is better to focus your buying on fewer styles and carry these in greater stock depth, so you have sizes available in store for customers to purchase.
- Keep in mind that this range arrival coincides with the 2018 holiday season so you will need to stock the right amount of product to take advantage of this busy time of year for apparel and gift sales, both online and in-store. Make sure the apparel range introduction is part of your sales process when selling new vehicles.
- What stock do you have that is being deleted from the previous collection, i.e. what will be obsolete from your current inventory given the new collection?
- Consider your demand via your online stores and plan for additional demand from any events in your calendar, e.g. Open Houses.
- Don't be too conservative. If you believe in a product you will sell it. How will you know if it will sell if you never present anything new?
- Buying what you personally like is important; you need to believe in the product to be able to sell it to your customers.
- It is also critical to think about your customers and who they are. Don't make your buying so personal that you exclude the groups of customers you have. Make sure you have something for every rider/buyer that comes into your dealership.

If you don't stock what your customers want they will only go elsewhere to buy their product!

**SETTING YOUR SHOWROOM**

Selecting your collection and placing your order is just the first step of what you need to do. The next step you need to consider is your sales plan:

- Having the right products will allow you to maximize your sales to the new customer groups and existing loyal owners.
- Think about the key new products you have ordered and how you will be able to make the most of their appearance in your stores.
- Have you thought about how you will inform customers that the products have arrived?
- What about a launch event that you can use to get your customers in the buying mood?
- Update your website and inform visitors that products are now available.
- Make sure all members of staff are aware that new products have arrived and make sure you have refreshed them in the key styles for the season.
- Challenge yourself and your colleagues to build sales by selling one more product for every transaction made. This will have a massive effect on your profitability, even if it is an additional low value sale per customer.
- Have a varied and engaging calendar of things you will do during the season. Don't just wait for customers to enter your stores. Be proactive in getting them to visit you, either in person or online.
- Consider what you have in store at the moment. Look at what has worked and sell this stock through. For products that have been slow, react sooner rather than later. Sell out of this obsolete stock and make sure your store is ready for new products to arrive.

# MEN'S GARMENTS

Our legends were not written. They were forged. On the dirt, mud, and asphalt of America's roads. In the heat of battle. Under the pressure of competition. On the salt at Bonneville. Since 1901. These are the legends that forged America's first motorcycle company.

Legends are not defined by the stories they tell, but by the stories that are told of them. So while our history matters, it's what we do next that will define us. Legends never follow. Never settle for the road most ridden. And are never satisfied repeating history. Because they demand the opportunity to write it.

The Indian Motorcycle® Company, in collaboration with The Rokker Company®, have crafted a line of motorcycle jeans, that deliver the style, and comfort that our riders desire, combined with the safety they demand, manufactured using only the highest quality materials.

**WHAT IS A GOODYEAR WELT?**

The Goodyear welting machine, invented in 1869, attaches the sole to a strip of leather, or welt, that runs around the outside of the shoe rather than the lining. Welting is a manual and time-consuming process, but results in a more waterproof and longer lasting shoe.
